

This is not an all-inclusive list of maintenance medications, and it is subject to change. Not all of the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials and formulary for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number printed on your ID card.

For the member: Generic medications contain the same active ingredients as their corresponding brand-name medications, although they may look different in color or shape. They have been FDA-approved under strict standards.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate. Thank you.
