Executive Director Update

MCSIG ANNOUNCES FY11-12 SELF-FUNDED HEALTH PLAN RATES

At their April meeting the MCSIG Board of Directors adopted the FY11-12 contribution rates for the MCSIG self-funded health plans.

PPO OPTION I: The contribution rates for this plan are increasing by only 1%.

PPO OPTION II: This plan is being terminated effective midnight, June 30, 2011. Due to unusually high claims and low enrollment, this plan would have required a 20% rate increase to stay financially viable with no subsidy from the other self-funded medical plans.

PPO OPTION III: The contribution rates for this plan are **decreasing** by 2%!

Dental & Vision: The FY11-12 contribution rates for all dental and vision plans remain the same as current rates.

Through the united efforts of the MCSIG Board and our members we have made significant progress in controlling our medical spend trend. Your MCSIG Board will continue considering additional cost containment strategies throughout the summer months.

HAVE A HEALTHY SUMMER!

MCSIG Benefits: Great Plans, Great Value!
